

## Trista E. North, PhD promoted to Professor

The Stem Cell Program is pleased to announce Trista E. North, PhD has been promoted to Professor of Pediatrics at Harvard Medical School. Dr. North is a Principal Investigator in the Stem Cell Program and Department of Hematology/Oncology at Boston Children's Hospital and Co-Director of the Developmental and Regenerative Biology graduate program.

Dr. North received her BA from Bowdoin College in 1996, and PhD from Dartmouth College in 2002. Following completion of her postdoctoral research in Len Zon's lab at Boston Children's Hospital, Dr. North established her independent research laboratory in 2008 with a focus on Developmental Hematopoiesis.

She joined the Stem Cell Program at Boston Children's Hospital in 2018. She is an active faculty member in the Biological and Biomedical Sciences Graduate Program at HMS, the Harvard Stem Cell Institute, and Dana-Farber/Harvard Cancer Center Leukemia Program. Dr. North currently serves as Treasurer on the Executive Board of the Zebrafish Disease Models Society; she is also a member of the Stem Cells and Regenerative Medicine Scientific Committee of the American Society of Hematology, and Nominating Committee for the International Society of Experimental Hematology.

Please join us in congratulating Trista!
